In the early 1990's a station similar to M21 (Russian Air Defense) transmitted on 5416 kHz.

It sent the following QRV message in 50bd RTTY:

VV99+1804+0++++++

The time string was UTC+1. It belonged to the Russian forces in Eastern Germany or the East German forces.

M29 was one of the first Morse numbers stations that I decoded with my Commodore 64 and SWL-decoder. This copy is from 17-2-1986, 2215 UTC on 4014 kHz.
